

MALEBO MATHABATHA

Bachelor of Information Science – Information Science (Majoring in Data Analytics and Business Management)

Mobile: 0727267038 | Email: mathabatha.malebo1@gmail.com

Residential Area: Brooklyn, Gauteng, South Africa | LinkedIn: www.linkedin.com/in/malebo-mathabatha

PROFESSIONAL PROFILE

Final-year Information Science student (BIS, majoring in Data Analytics and Business Management) at the University of Pretoria, graduating 2026, with a strong academic record including the Dean's Merit List (2024, 2025) and Golden Key International Honour Society membership. Skilled in Microsoft Word, Excel and PowerPoint, with working knowledge of Power BI, Python and HTML for data analysis and visualisation, and SharePoint for collaborative document management. Experienced in structuring technical documentation and project requirements for clarity, applying a problem-solving mindset built through data analytics coursework and independent projects.

A dependable team player who learns new tools quickly and is ready to contribute to a technical team from day one.

EXPERIENCE

➤ AI Literacy Society Vice Chairperson | University of Pretoria (2026 - Present)

- Gained exposure to a Vice Chairperson role within a student-led society focused on advancing AI literacy across campus and professional communities
- Exposure to spearheading “AI Across Professions,” an initiative featuring 6+ speakers from diverse professional backgrounds, promoting practical AI adoption across academic disciplines and career paths
- Co-organised “Vibe. Ship. Win.” with AWS Student Builder Group @ TUT, gaining exposure to a hands-on workshop for 50+ attendees introducing AI-assisted development workflows using Amazon Kiro, from ideation through deployment
- Exposure to outreach and engagement efforts to grow AI literacy awareness among both technical and non-technical students

➤ AI Literacy Society Secretary | University of Pretoria (2025 - 2026)

- Exposure to coordinating 8+ initiatives promoting AI literacy and innovation awareness among first-year students
- Gained exposure to streamlining program coordination through AI-enabled communication tools and SharePoint for group work collaboration, document sharing and version control, reducing manual workload and improving team efficiency
- Exposure to hosting an “AI in Business” workshop, translating technical AI concepts into practical, commercially relevant applications
- Partnered with students and stakeholders, gaining exposure to designing and delivering educational programming that strengthened engagement and knowledge transfer across the society
- Exposure to proposing enhancements to digital learning experiences, contributing to ongoing program development

➤ UPStars EBIT Mentor | University of Pretoria (2024 - Present)

- Gained exposure to mentoring 15+ first-year students, supporting their academic transition and contributing to improved performance and retention
- Exposure to facilitating structured study sessions, helping students build effective problem-solving and independent learning strategies
- Exposure to guiding students in navigating academic resources and institutional systems, improving their access to critical information
- Gained exposure to building mentor-mentee relationships, fostering an inclusive, supportive environment that encouraged participation and confidence
- Exposure to identifying common academic challenges among students and delivering practical, tailored solutions to support their success

EDUCATION | QUALIFICATIONS

2024 - 2026: Bachelor of Information Science (BIS) – Information Science

Majoring in Data Analytics and Business Management

University of Pretoria

Achievements:

- Dean's Merit List (2024, 2025)
- Golden Key International Honour Society Member (2025)

PROJECT & PRACTICAL APPLICATION

Personal Professional Portfolio Website | AWS Vibe-Coding Competition — 2nd Place

- Placed 2nd in an AWS vibe-coding competition, building a personal professional portfolio website through AI-assisted, prompt-driven development
- Used Amazon Kiro to design and build the site end-to-end, from initial prompts and ideation through to a deployed, working product

- Managed version control and code hosting using GitHub, structuring commits to track progress through the build
- Designed the site to showcase academic background, skills, and project work in a clean, accessible format
- Gained hands-on experience with AI-assisted coding workflows, rapid prototyping, and shipping a deployed product under competition time constraints

Digital Literacy & Student Access Platform

- Designing a mobile/web platform to improve access to university and funding information for underserved learners
- Centralising university prospectuses, application deadlines, NSFAS guidance, and bursary opportunities in one accessible system
- Simplifying student onboarding through step-by-step guidance and verified resource links
- Applying user-centred design principles and exploring AI tools to improve information delivery and accessibility
- Structured the problem by identifying key barriers to information access and designing a scalable, user-centred solution

Tourism Destination Website | HTML Web Development Project

- Developed a tourism website using HTML featuring South African travel destinations, activities, accommodation listings, and destination information
- Structured content to improve navigation and deliver a user-friendly browsing experience
- Demonstrated HTML and front-end web development skills

Design & Creative Media Projects | Adobe InDesign & Illustrator

- Used Adobe InDesign and Illustrator to produce a range of creative media, including a movie poster, a Checkers retail insert, a branding media kit, album artwork, an infographic, and a book cover redesign

COMPUTER SKILLS

Data & Analytics: Microsoft Power BI, Advanced Microsoft Excel, Data Visualisation, Predictive Analytics

Programming: HTML, Python (Introduction to Data Analytics)

Design: Adobe InDesign, Adobe Illustrator (movie poster, Checkers insert, branding media kit, album artwork, infographic, book cover redesign)

Tools: Microsoft Word, PowerPoint, Excel, SharePoint (group work collaboration)

AI & Emerging Technologies: Generative AI (ChatGPT, Gemini, DeepSeek), Business Analytics

SHORT COURSE | TRAINING | CERTIFICATES

Data & Analytics:

- Master Microsoft Power BI
- Predictive Analytics Essential Training
- Introduction to Data Analytics with Python
- Data Visualisation for Data Analysts
- Excel for Business Analysts
- Advanced Excel: Formulas and Data Analysis
- Building LLM Applications with Prompt Engineering (NVIDIA)

AI & Technology:

- Artificial Intelligence and Business Strategy
- Generative AI-Powered Strategic Business Analysis

Project Management:

- Project Management Foundations: Schedules
- Project Management Foundations: Risk

Professional Readiness:

- Ready for Work Programme (5 Certifications), University of Pretoria
